Title: CSR, Social Stock Exchange and ESG Advisory

Legal Applicability:

CSR

Section 135 of the Companies Act, 2013 mandates Corporate Social Responsibility (CSR) compliance for companies meeting specified financial thresholds in the immediately preceding financial year.

It applies to every company with a net worth of ₹500 crore or more, turnover of ₹1,000 crore or more, or net profit of ₹5 crore or more. Such companies must constitute a CSR Committee, formulate a CSR Policy, and **spend at least 2% of their average net profits** of the preceding three financial years on CSR activities specified under **Schedule VII**.

Non-compliance attracts penal consequences under the Act, making it essential for eligible companies to ensure timely and accurate CSR compliance.

ESG Disclosure- BRSR in India

The Business Responsibility and Sustainability Reporting (BRSR) framework, introduced by SEBI, mandates **ESG disclosures** for the **top 1,000 listed companies in India by market capitalisation**. Applicable from FY 2022-23, BRSR requires companies to report on environmental, social and governance (ESG) parameters, including principle-wise disclosures under the **National Guidelines on Responsible Business Conduct (NGRBC)**, through both qualitative and quantitative metrics.

SEBI has further introduced **BRSR Core, requiring mandatory assurance** on 9 KPIs, **applicable** to a company in a phased manner starting with the top 150 listed entities and progressively extending to the **top 1,000 for FY 2026-27**.

Non-compliance may attract regulatory action under SEBI's Listing Obligations and Disclosure Requirements (LODR).

Social Stock Exchange

The Social Stock Exchange (SSE) is a novel initiative by SEBI, launched as a separate segment under existing stock exchanges like the BSE and NSE, to enable social enterprises and non-profit organisations to raise funds directly from the capital markets for social causes.

Registration on the SSE strengthens governance and reporting discipline, enabling NPOs to demonstrate transparent, measurable social impact to a broader base of investors and donors.

The Social Stock Exchange offers Not-for-Profit Organisations (NPOs) enhanced credibility, wider visibility, and access to a structured, diversified pool of funding beyond traditional grants and donations.

For corporate and retail donors, the SSE provides a regulated and transparent platform to channel CSR funds and impact investments, ensuring greater accountability and verifiable outcomes for their contributions.

Three Service boxes as titled below-

1. CSR Advisory

We work with corporates to design, implement, and monitor CSR strategies that go beyond compliance — from CSR policy drafting and CSR Committee formation to project selection, budgeting, implementation partner due diligence, impact assessment, and annual reporting under Section 135 of the Companies Act, 2013.
